

## STATE DEMOCRATIC TICKET

FOR GOVERNOR, JOHN W. DANIEL, OF LYNCHBURG. FOR LIEUTENANT GOYERNOR, JAMES BARBOUR, OF CULPEPER FOR ATTORNEY GENERAL, P. W. MCKINNEY, OF FARMVILLE FOR THE HOUSE OF DELEGATES, JUDGE CHARLES E. STUART.

THURSDAY EVENING, NOV'B. 3

Mr. D zerdorf is the republican member of Congress for the let district in Virginia. He is not a latter day republican, but was one when to be so required physical as well as moral courage. He is now one of the many republicaus in the State who refuse to resounce their principles at the command of a scallaway demoural, even though that command be sanctioned by the republican administration, and, ie a letter to his parcy in Virginia, he assigns the following exactiont reasons for that refusal:

"I cannot support the candidates upon the Ma hone ticket; because, first, the pistform upon which they were nominated and which is accepted and advocated by them violates the eardinal prisciple of pational republic in faith and practice, in that it boldly advocates the repudiation of one-third of the State debt of Virginia, Secand, I believe that the success of that ticket with the legislation upon the debt question that will necessarily follow, will be detrimental to the best interests of the State, and fix upon it a blight from which it will never recover. Third, Because I believe the endersement of the scheme by the national republican party is wrong in prisciple, the abandonment of that plank in its platform—the maintenance of public credit-which, more than any other, has lost it to victory in each succeeding compaign, and that it will result in further emberrassment to the national organization and the loss of prestive in the business and commercial centres of the North, which will endanger her fature success. Four.b. That I believe the attempt to force repudiation upon the people of this Sinte, which is now on the high road to presperity, and thus fix upon them a stigma and a stain, is a wrone, in which, as one of their representatives, I can take no part. Pifth, Because I believe the evils that will result to the republican party of Virginia from this movement will mera than overbslanes any temporary neveltage that might be gained."

How many republicans there are in Virgicia as true to their professed faith as Mr. D. zetdorf, is will be determined bext Puesday. That there are many, and some in this city, we are assurred on no less authority than their own.

Many white people believe that the reason the negroes in Virginia have herotofore voted solidly is because the white men in the State have voted the same way, and that if the white people were to divide the negroes would do likewise, and that thus the color line would be abolished. Others believe that no matter how the white people may split and divide among themselves, the negroes will always vote as a unit and always for the demagegue, and thereforeegainst the best interests of State. The question thus raised will be tested nixt Tu :day, for the white people are divided. A majority of them wish to promote the prosperity of every moral and material interest of the State, and to preserve her eredit and honor, but a large minority, by false teaching and insincere promises, have been induced to support solfish demagogues, who, to gratify their own individual desires, would not, and do not hesitate to wound Virginia to her very heart. If all the negroes vote for the repudiators, as those who have no confidence in them believe, the debt payers will have a hard fight to obtain a victory, but if they divide, as the white men have done, the success of those who are cudeavering to bring immigration and capital to the State and to stimulate and fester all her homes, and generally remain there; but it seems industries is assured, he dabt question will bo satisfactorily settled, the fu ure coward match in Washington, carry pizzols and some are exof Virginia will be unobstructed, and they will necosasrily share to the gameral welfare.

General Mahone is no slave of escens. Oh, no! He would scorn to be such. He is liberal and acts as he thinks right, independent of all sively used to designate victims of the disease. caucus domination-that is he says he is. But according to the Baltimore American the repub. may be the motive only of such characters in lican Senatorial caucus last Saturday appointed him as one of the committee to wait on the President and request him to withdraw the nonination of Stathsm and appoint him after the Bonate adjourned. Then, too, he votes without fail for every resolution adopted by the republican caucus. But slave of caucuses? perish the thought.

Bome of the republican papers are endeavering to offset the behavior of the Massachusetts Congressional Commission, relieved everybody else of any obligation to look after the entertainment of Mr. Winthrop, by telling them that as he, Loring, was also from Massachusotts, it would be his pleasure as well as his duty to see that the crater of the occasion was cared for properly.

General Mahone's Richmond organ says: "Clifford Statham is postmaster of Lynchburg after all! And now what do you Bourbons and funders propose to do about it? How!? Well, then-how!!"

But in that how! the most effective note will be that of the republican union soldiers, whose wounded comrade has been removed from an office that he filled efficiently in order to make place for a young scalawag democrat.

After a few short months of office Boy, Col George W. Carter has been removed from his position as U. S. Minister to Vencuisla. The Colonel's case affords another example of the inevitable fate of all Virginia democrats who change their politics for no other purpose than to get office.

There are upwards of four hundred white registered voters in this city who have not paid their espitation tax. Let the list be reduced to a cipher by Monday night. Better pay the one dollar than run the risk of the depreciation of every voter in the State that must necessarily fields of labor in rease and lave. result from the success of the Mahonites,

FROM WASHINGTON. Special Correspondence of the Alexa, Gazette

WASHINGTON, D. C., Nov. 3, 1881. The Virginia Mahonius here are doing al they can to promote the success of their cause. They are making arrangements for sending every man they can to the Smie to vote. They have their agents out taking the names of all they era induce to vote the Mahone ticket, and will poy their expitation tex and furnish them with transportation. It is toported here that not only has a large sum of money been sent to At nandria to pay the capitation tax of the Mahose valers there and to buy votes for him, be sent from here to both the city and county building will begin on the 15th instant. of Alexandria on cleation day, and that if there be such opportunities as that at the 3d word polls last November, they will take possession of the pels. It is also said that the Mahoo ites in Alexaderia while pretending to be making no fight and to concede the election of Stuart by a large majority, are working like beavers secretly, and have stone hopes of cutting his majority down to a low figure. There is a Virginia democratic association here, but they don't seem to be doing much for their professed

The President left this morning on the limitd express for New York. It is said he will not return until after the election in that State sext Tuesday, and that he will remain there to take part in that election. It this be so, it will be no less improper than was the pert he played at Albary during the che ion of the senators from that State, and be as great an insult to the senatry as his appointment of Statham after the Senate refused to confirm him, and before the sonators had left their chamber, was to that body. And thee, too, it must not be forgotten that the President told the Ladies' Temperance Association the other day that he was the President of the whole country, and not of any section, party or faction. He was unac companied in his drive y a creay afternoon.

Herester the Pousion Office will be closed to the public after 2 o'clock in the afternoon, so as to permit the work of the office to be transacted uniaterruptedly during the remainder of the business hours. If found that the new plan works well it will be adopted in all the other bureaus of the Interior D. pariment.

The secommodations for the ladies who at tend the sessions of the Senate will be not her as ample per as convenient as they have been heretelere, for their retiring room has been taken away iron them, and is now being trans-formed into two committee rooms.

A letter received here this merning from Mr. Alex. Stephous states that he will probably atrive here about the 20th inst.

Lieutenant Colonel Welsh and Captain Buokley, of the 13th New York, who remained in Richmond after the Yorktown calebration, atrived here this morning on their return home. They speak in the highest praise of the horpitality they received in Virginia.

The President has, it is understood, determined to make few or so appointments until tho regular mession of Congress. With reference to his effecting the Attorney Generalship to Mr. Howe, it is reported that that gentleman says he has never heard of such an offer. Nearly all the business of the late session of the Sannte was transacted with closed doors, or as it is termed, in executive session. This statement recalls the fact that upon one coosion at the session before the Isat a clerk who entered the chamber during a prolonged exceutive session was surprised to fied not a single senator upon the floor, all having gone either to their houses or to the restaurant, or retired to the clock rooms, and this too while the people outside thought they were attending to some grave matters of state.

Mr. Robieson, coussel for Guiteau, appeared in the Criminal Court this meroing and asked Miss Briggs to her home, where they were met Byron Andrews and other persons. The Court regarded the request as tessenable, and took the matter under consideration. Mr. Robinson also asked for more time in which to prepare his esse. The Court said this request shou'd also be given due weight and a decision should be shortly rendered. Argument was then begun in the east of the Government against the alleged Star rou'e swindlers, with a view on the part of the latter's counsel to quasting the infermation filed by the prosecution.

Some years ago Schuyler Colfax, before his political eclipse or credit mobilier notoriety, addressed a delegation of young men-the graduates of some college-in the course of which he asserted that nine-tenths of the male inhabitants of this country aspired to the Presidency. It scems as though the percentage claiming the position will scon be as great, judging from the number of infatuated cranks who are of late met he was going to take the chair and address hanging around Washington either believing they are should be Chief Magistrate.
